Well F (Shallow)
- Golf course water quality

Well A, B, and G (Shallow)
- Allow water level maps to be prepared for shallow deposits in the area along Mammoth Creek and in meadow area to the south
- Help determine eastern boundary of shallow GW
- Golf course water quality

Well C and D (Deep)
- Subsurface geologic conditions
- Monitor possible influence of GW pumping
- Collect data for region between District Well 14 and USGS Wells SC1 and SC2

Well E (Deep)
- Subsurface geologic conditions
- Monitor possible impacts from Basalt Canyon geothermal pumping

Well #23
- Nested well construction

Well 22
- Well development and/or nested well construction

Legend
- Production Wells
- Monitor Wells
- Proposed Monitor Wells
